2 Craft-Bilt's New Website

We've been working quietly behind the scenes for almost a whole year on the new web site. It has actually been on-line since last summer, however we continued to refine it until recently. This professionally designed site is in keeping with our continuing goal for all Craft-Bilt media to have a consistent look and recognizable image. **Check it out at www.cbm.on.ca**

3 How to Recognize a Craft-Bilt Dealer

Look for our new product posters on the wall of your local sunroom or railing dealer.

If you're thinking of a sunroom, look for the certificate of membership in the Canadian Sunroom Manufacturers Association. Go to canadiansunroom.org for contact info to find out if they are a member in good standing.

4 Solar Shades

The best way to stop the heat from entering your home or business is from the outside... ask for literature on our new solar shade product line.

5 Retractable Canopies

Heavy construction, not what you find at your local big box store. Available attached to the home or freestanding with options like side curtains (manual or motorized), waterproof polyester and hundreds of colours/patterns/fabrics to choose from.

6 Retractable Awnings

Ask for the "Our awning has it" flyer which outlines the many features that make this product superior to all others. Numerous options include: many valance styles, motorized front curtain, completely enclosed cassette, variable pitch, light bar on the front profile and more!

7 Here are just some of the great advantages of Craft-Bilt Financing:

- You can pay off your loan anytime, no penalties
- No collateral (security)
- Staged payments are available for those big projects
- Make your application on-line, in the privacy of your own home
- Get the current interest rate with the click of a mouse
